

OUR KNOW-HOW BEGINS HERE

JAG is the Canadian leader in radish production. This third-generation family-owned business has been farming sustainably since its beginnings in 1960.

In the black earth of Sherrington, we produce three varieties of radish: red, Mixed Radishes and Breakfast Radishes, with and without leaves. In our greenhouses, we produce organic lettuce and organic baby spinach year round. We also grow onions and carrots that are marketed under the Vegco banner. To ensure unmatched freshness, we sow and harvest 30 acres a week.

Because we can package **15,000 boxes of radishes with leaves** and **10,000 boxes of cello radishes** every week, we can deliver fresh radishes daily everywhere across Quebec, Ontario and the U.S. East Coast.

A family of responsible and dedicated producers

The entire Guérin family is proud to deliver quality and freshness through healthy farming. Over the years, we've constantly modernized our equipment to be even faster and more efficient. Today, our annual production totals **600,000 boxes of radish**.

Our R&D department continues to innovate to optimize our production processes and reduce our environmental footprint. Moreover, JAG is CanadaGap certified to ensure the safety and traceability of our products. Every day, we continue to offer 100% local production from the land we love.

Sales Sheet

ORGANIC GREENHOUSE GROWN LETTUCE

With leaves in tray

Format	142 g
Quantity per box	8 trays
Packaging	Recyclable plastic tray
Pallet	52 boxes maximum
Barcode	6 28448 14000 5
Availability	Year-round

ORGANIC GREENHOUSE GROWN BABY SPINACH

With leaves in tray

Format	142 g
Quantity per box	8 trays
Packaging	Recyclable plastic tray
Pallet	52 boxes maximum
